

# Beaumont Unified School District

Join the Superintendent's Advisory Committees  
for the 2017-18 School Year

# We Want to Hear from You!

## Student Voice

The Student Advisory Committee is comprised of student representatives from our schools. These students meet with the Superintendent during the school year to discuss a variety of topics, share information and feedback about their school experience and provide a two-way conversation to broaden understanding of school related issues.

## Parent Voice

The Parent Advisory Committee is comprised of parent representative from school sites. They provide the Superintendent with feedback and insight from a parent's perspective on school and District issues and policies. This ensures that the needs of parents and their families are heard and considered when decisions are made in the District.

## Staff Voice

The Staff Advisory Committee is comprised of classified and certificated staff members. This committee provides input and feedback in the implementation of school programs, projects, and services. The goal is to increase employee awareness of critical school related issues and allow staff to provide employee perspective for District administration.
